SUMMARY

I am a web developer that cares about good practices and clean code. My main focus is the frontend and I am currently an Angular developer transitioning to React. I'm Always open to learn new tools and technologies.

EXPERIENCE

Frontend Developer

Rankmi.com

📅 06/2018 - Ongoing

Startup. Human resources management tools and services app for enterprises.

- Developed components, modules and features of diverse complexities using Angular JS framework version 1.6.7.
- Refactored components from .js to .ts and made improvements over legacy code. Also collaborated in migration from Angular JS to React.
- Collaborated in creating and refactoring components to enable accessibility by limited or impaired users (WAI ARIA standards for the web).

Fullstack Developer

SOTEC Consulting

📅 06/2017 - 06/2018

IT Solutions consulting agency

- Developed components, modules and features using the Angular framework versions 2 to 5.
- Collaborated in REST API development using Spring Framework and Entity Framework with Microsoft SQL Server.
